INC

Type: FOCUSED INSPECTION

Date: 24-MAY-2023

2.1(a)(1)

Repeat

Requirements and application.

This was a search inspection.

This facility has failed to become licensed under the Animal Welfare Act and continues to conduct regulated activity of exhibiting red kangaroos as a part of their dairy tour. On 24-May-2023 at approximately 3:35 pm, two APHIS inspectors observed tour guests enter the kangaroo enclosure housing 3 adult red kangaroos. Inspectors later observed tour guests enter another enclosure housing at least one young adult red kangaroo. The inspectors conducted an exit interview with a facility representative that stated they have continued to do tours with the kangaroos since last cited in May 2022. On their website where the public can book tours, there are two types of tours listed. In the Hands-On Tours and Animal Petting Tours, it's listed that participants may "Pet the kangaroos" as one of the activities included in the tour package.

Conducting regulated activity without a USDA license does not comply with the Animal Welfare Act or ensure that APHIS officials can assess the care of the animals. The facility must either cease regulated activity or obtain a license from the USDA to continue conducting regulated activity under the Animal Welfare Act.

No regulated activity may be conducted until USDA license is obtained.

This inspection and exit interview were conducted with a facility representative.
