Certificate: **74-C-1121**
Site: 002
Sea Lion Splash LLC

Type: FOCUSED INSPECTION
Date: 19-SEP-2023

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

One female 20 year old South American Sea Lion (Stella) has muscle loss over her back and pelvis . Her spine and hips are slightly visible. She is bright , alert and readily responded to commands at time of the inspection . Review of weight records indicate no weight loss in the last 6 months . The licensee stated that she just came out of heat and did not eat well during her heat cycle. Although ,the muscle loss may be age related there is concern it could be related to other issues. The attending veterinarian was sent photos taken at time of the inspection and stated that she did look thinner from her last exam in the spring . Stella must receive a veterinary exam to determine if the muscle wasting is a health issue. CORRECT BY : 10/10/2023

This inspection and exit briefing were conducted with the licensee.
