Type: ROUTINE INSPECTION
Date: 30-MAR-2022

3.125(a)

Facilities, general.

The den boxes in 7 of the enclosures housing large exotic cats and 1 bear had damage to the exterior surfaces leaving large protruding wood splinters, exposed screws, and holes. These surfaces, if not repaired, could lead to injury and/or entrapment of the animals.

Outdoor housing facilities shall be structurally sound and maintained in good repair to protect the animals from injury.

Correct by April 30th.

3.131(c)

Sanitation.

Tall grass and weeds, up to knee height in some areas, was noted between the "D" and "E" enclosures and the perimeter fence. Overgrown grass and weeds could allow harborage of pests and vermin that could affect the health and well-being of the animals.

Premises shall be kept clean and in good repair in order to protect the animals from injury. Weeds, grasses and bushes must be controlled to facilitate cleaning of the premises and to reduce or eliminate breeding and living areas for rodents and other pests and vermin.
