Site: 001

REBECCA STEDMAN

Type: ROUTINE INSPECTION

Date: 16-AUG-2023

3.125(a)

Facilities, general.

There is paint flaking off on the back side of several sections of fencing that is facing the animals. This includes fencing for the deer, alpaca, pig and sheep in two different enclosures. Paint that is flaking may cause a hazard if the paint is ingested by the animals. These sections of fence need to be scraped down to remove flakes and then maintained in good repair for the safety of the animals.

Correct by: Aug 23, 2023

This inspection and exit interview were conducted with the licensee.
