7310 SECREST SHORTCUT
INDIAN TRAIL, NC 28079

Customer ID: **13988**
Certificate: **55-B-0164**
Site: 001
JIM SIMPSON

Type: FOCUSED INSPECTION
Date: 14-SEP-2023

3.137(a)

Primary enclosures used to transport live animals.

Two enclosures used to transport animals did not have projecting rims. Two transport enclosures each housing 1 Capybara did not contain projecting rims. A lack of projecting rims on primary transport enclosures can allow for inadequate ventilation particularly when the cages are stacked when placed on the cart to move between the auction floor and holding area. Correct by 9/30/2023 by ensuring that all primary transport enclosures for subpart F animals must contain projecting rims or other devices on the exterior walls to prevent obstruction of the ventilation.

This inspection and exit interview were conducted with the Licensee. This inspection was conducted in Mount Hope, Ohio
