DANIEL FISHER

Type: ROUTINE INSPECTION
Date: 05-OCT-2021

2.75(b)(1)

Records: Dealers and exhibitors.

A current record of guinea pigs on hand was not available for review. A total of 76 adult and 3 newborn guinea pigs were counted during this inspection. There were no inventory records indicating the number of adults, weanlings, or newborns present for the last few months. Failure to maintain these records can make it difficult to assess the health of the caviary by indicating losses by deaths or deceases in the number of animals born, and to track animals being used in regulated activities to ensure their humane care and use. The facility must maintain records containing the required information which fully and correctly disclose the number of animals held, owned, acquired or disposed of including births and deaths. Correct by October 10, 2021.

This inspection was conducted with the licensee and the exit interview was conducted with a family member.
