Certificate: **91-C-0023**
Site: 001
WOLF HAVEN INTERNATIONAL

Type: ROUTINE INSPECTION
Date: 14-JUN-2022

3.13(a)(2)

Veterinary care for dogs.

Eight of the wolf/dog hybrids at the facility have not had a physical examination by the attending veterinarian within the last 12 months. A complete physical exam from head to tail is beneficial as it may alert the veterinarian to health concerns that require attention. In addition, a physical examination can help monitor any ongoing health issues.

To be corrected by: August 15, 2022

3.13(a)(3)

Veterinary care for dogs.

Eight of the wolf/dog hybrids do not have current vaccinations for rabies, parvovirus and distemper. Vaccinations for contagious and/or deadly diseases of dogs assist in disease control measures and help ensure the health and welfare of these animals. To be corrected by: August 15, 2022

This inspection and exit interview were conducted with the facility representatives.
