3.131(c)

Sanitation.

There is an excessive amount of materials, unused caging, fencing and other miscellaneous items being stored in the goat barn. Some of these items are stored on the shelf directly above the goat enclosure. This could negatively affect the health of the animals if an item were to fall into the enclosure.

Buildings and grounds must be kept clean in order to protect the animals from injury and to minimize areas for vermin. This area must be addressed and accumulations of miscellaneous storage items must be placed in designated areas and cleared as necessary.
