

## Inspection Report

Kimberly A Lucas  
759 Shaffer Road  
Sigel, PA 15860

Customer ID: **2264**  
Certificate: **23-C-0046**  
Site: 001  
KIMBERLY LUCAS

Type: ROUTINE INSPECTION  
Date: 24-JUN-2015

### 3.127(d)

#### FACILITIES, OUTDOOR.

\*\*\*One Dromedary camel does not have a perimeter fence. Currently, the perimeter fence for the facility is acting as a portion of the primary enclosure fence for the camel. The licensee must ensure that all non-dangerous animals have a secondary perimeter fence of at least 6 feet in height around the primary enclosure fencing. This is required to ensure a secondary containment system for the animals should they escape their primary enclosures and also to keep unwanted animals and people out of primary enclosures. Correct this by ensure a functional perimeter fence is in place for all animals.

Correct by: 01 August 2015

### 3.129

#### FEEDING.

\*\*\* This facility does not have a written feeding plan for the large felids on the property. A written plan approved by the attending veterinarian is required to ensure the special dietary needs for these large carnivores is documented and followed by the facility. This plan must include guidance for supplements to be added to the diet if a complete commercial diet is not being fed to the animals. Correct this by contacting the attending veterinarian to develop and approve this plan.

Correct by: July 1, 2015

\*\*Inspection and exit interview conducted with the licensee.
