Type: ROUTINE INSPECTION
Date: 29-AUG-2023

2.134(a)

Contingency planning.

At the time of the inspection, the licensee did not have a documented contingency plan for the facility. If an emergency or natural disaster were to occur at the facility, the lack of a written contingency plan could impact animal health if the staff are not prepared to respond to the situation appropriately. Exhibitors must develop, document, and follow an appropriate contingency plan in the event of an emergency or disaster.

CORRECT BY: October 1, 2023

3.154

Environment enhancement to promote psychological well-being.

The licensee has not developed and documented an environmental enhancement plan to promote the psychological well-being of the birds housed at the facility. Lack of an environmental enhancement plan does not ensure that adequate and appropriate measures to promote the psychological well-being of the birds are being provided. The facility must ensure that a documented plan for environmental enhancement that addresses the required elements approved by the attending veterinarian is maintained and available for inspection.

CORRECT BY: October 1, 2023
