FACILITIES, OUTDOOR.

*** The two camels were moved from the round pen adjacent to the lower barn to an enclosure on the hill. Although the animals have a shaded tree line, there is still no shelter provided to protect the animals from inclement weather. The licensee states it may be up to a month until a shelter can be built for the animals. This area of PA has continued to have rain in the forecast and a shelter shall be provided for all animals housed outdoors to afford protection from the elements.

This inspection and exit interview were conducted with the licensee.
