### 2.1(a)(1)

#### Requirements and application.

This pet store changed ownership at the end of July 2023 and sells regulated species without a valid USDA license. At time of walkthrough of the facility, 11 degus, 3 hedgehogs and 5 sugar gliders were able to be viewed by the public and offered for sale. A USDA license is required to sell these species of exotic pocket pets. APHIS personnel discussed regulated activity and the Animal Welfare Act and provided instructions for license application.

A valid USDA license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. The facility must obtain a USDA license or discontinue regulated activities. No regulated activities may be conducted until a USDA license is obtained.

This inspection and exit interview were conducted with facility representatives.
