During the inspection, protocols VET 262, VET 231, and VET 135 did not include an adequate rationale for the appropriateness of the number of animals to be used. The protocols did not include an adequate rationale such as the number of students that would be involved or the desired student-to-animal ratio. An animal use proposal must include an adequate rationale for the appropriateness of the numbers of animals to be used so that the IACUC can conduct a thorough review of the components of the activities related to the care and use of animals and determine that the proposed activities are in accordance with the Animal Welfare Act. Correct by ensuring that all protocols contain all components listed in this subsection.
