Customer ID: 11720  
Certificate: 48-A-1549  
Site: 002  
ROGER & MARLA CAMPBELL

Type: ROUTINE INSPECTION  
Date: 04-AUG-2015

### 3.1(c)(3)

#### HOUSING FACILITIES, GENERAL.

There is a build-up of dried mud on at least 10 dog shelters in the outdoor housing facility. Surfaces that are not cleaned and sanitized on a regular basis may lead to an increase in disease transmission. All hard surfaces in contact with the dogs must be spot-cleaned on a daily basis. Correct by 5 August 2015.

### 3.4(b)

#### OUTDOOR HOUSING FACILITIES.

There are three boxer dogs in an outdoor housing facility enclosure provided with three dog shelters. Two of these dog shelters are not as tall as these dogs. Shelters that do not allow the dogs to stand in a normal manner may cause discomfort to the dogs. All shelters must be of a size that allow the dogs to sit, stand, and lie in a normal manner. Correct by 18 August 2015.

### 3.11(c)

#### CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Weeds are grown-up around the outside perimeter of at least 5 of the outdoor housing facility enclosures. Many of the weeds are at least 4-6 feet in height. Uncontrolled weeds can harbor pests and make cleaning difficult. All weeds and grass must be controlled in the enclosures as well as the surrounding grounds to facilitate cleaning and pest control. Correct by 18 August 2015.

This routine inspection and exit interview were conducted with the licensee and Robert Bacon, ACI and Kendall Lundy, ACI.

#### Additional Inspectors

Bacon Robert, Animal Care Inspector
