### 2.40(a)(1)

#### **Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

The attending veterinarian has not visited the facility since January of 2021 and the program of veterinary care states that routine visits to the premises are to occur a minimum of two times per year.

Regularly scheduled visits to the premises is important so that the veterinarian can evaluate the adequacy of veterinary and other aspects of animal care. Formal arrangements with the attending veterinarian must include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor. Correct by 15 JUN 2022.

### 2.40(b)(2)

#### **Critical**

#### **Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

A goat named "Duke" became sick and eventually passed away on 3/16/22. The licensee claims to have contacted a veterinarian by phone prior to his passing but could not provide a name or records of such consultation. No exam or care was provided by any veterinarian. Two veterinarians that have previously provided care at the facility (the attending vet and another local vet) also could not confirm that they were consulted in this case.

The lack of appropriate methods could lead to more serious disease or death and cause unnecessary pain or discomfort
