#### Environment enhancement to promote psychological well-being.

Philip M Dolci was inspected on April 5, 2023, at the Oak Mountain State Fair in Pelham, AL. The 6:00 pm performance was observed.

At the time of inspection, the documented program of environmental enhancement for non-human primates was inadequate. It did not address all of the elements required by the Animal Welfare Regulations.

An adequate environmental enhancement program is essential in promoting the psychological well-being of non-human primates. Dealers, Exhibitors, and research facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of non-human primates.

To be corrected by May 3, 2023.

This inspection and exit interview were conducted with a facility representative.
