YORK COUNTY COMMUNITY COLLEGE

Type: ROUTINE INSPECTION
Date: 22-JAN-2020

2.31(c)(2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The IACUC performed facility inspections at a 9 month interval in 2019, in March and December. Inspections of animal housing and procedure spaces are performed to identify potential program deficiencies and a plan for correction to ensure animal welfare. Semiannual inspections by the IACUC are required at a maximum of 6 month intervals. The IACUC should perform inspections at required intervals.

Correct by: the time of the next semi annual inspections.

2.31(c)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The IACUC reported to the Institutional Official once in 2019, in December 2019, and the report was not signed by a majority of the IACUC members. Reporting to the institutional official ensures that the committee informs the Institutional Official of any program deficiencies, identifies facility needs, and, if present, animal welfare issues, as well as establishing a plan for correction of deficiencies. Signature by the majority of the committee ensures that the IACUC has reviewed the animal care program and any required improvements. Reports to the IO are required to be updated at least every six months upon completion of the semi-annual program review.

Correct by: the time of the next semi annual report to the IO.

This inspection and exit interview were conducted with the program representative.

Prepared By: SAVAGE SARA, D V M USDA, APHIS, Animal Care
