BARINGER FAMILY FARM

Type: ROUTINE INSPECTION
Date: 05-SEP-2017

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The written Program of Veterinary Care is incomplete. The Attending Veterinarian has not signed off on the Program of Veterinary Care. In addition, sections of the Program of Veterinary Care have not been filled out. An incomplete Program of Veterinary Care doesn't ensure that the animals are receiving optimal care. The Program of Veterinary Care must be filled out completely and signed off by the Attending Veterinarian. Correct by 9/19/17.

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Two medications were found to have been expired. Tylan 200 and BO-SE Injection both expired 07/2016. Expired products doesn't ensure that the products are safe to use. All expired products must be discarded. Correct from this day forward.

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

The animal records were incomplete. Since the last routine inspection completed on 12/13/16, eleven goat dispositions were not documented, four goat records were missing acquisition information, the acquisition and disposition information was missing or incomplete for at least 35 of the rabbits, and there was no inventory information at all for the one cow. Not providing complete and accurate information does not allow for proper tracking of the animals by an APHIS official. A current inventory of all regulated animals must be created and maintained going forward. All acquisition and disposition information must be documented for all regulated animals. Correct from this day forward.

3.125(a)

FACILITIES, GENERAL.

Two boards were laying on the ground in the goat and sheep enclosure. One board had two nails protruding out from it. The other board had a nail head that was protruding out from it. The goats and sheep could have stepped on the boards and injured themselves. The housing facilities shall be structurally sound and maintained in good
