### 2.40(b)(3)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Daily observation of the dogs is not occurring on a regular basis for the adult male dogs. The licensee was removing a dog from an enclosure as a random check for the inspector and noticed a scab about one inch in diameter on the dog's shoulder and treated it according to the program of veterinary care. The licensee stated that the row of 4 male dogs were not checked for the last two days, therefore the wound was not noticed and treated earlier.

Lack of daily observation can delay the treatment of an ailment and prolong discomfort and pain. The licensee must observe all dogs daily to assess their health and well-being. To be corrected: This date forward.

### 3.8

#### EXERCISE FOR DOGS.

An individually housed dog that required 1568 square inches of floor space to meet the exercise plan was only provided 1242 square inches of floor space. The written exercise plan allowed dogs to be individually housed and required a minimum space for exercise equal to two times the required minimum floor space. The licensee was not following the exercise plan.

The lack of appropriate exercise can affect the dogs' mental and physical health, and impact the growth of young dogs. The licensee must develop, document, and follow an appropriate plan for exercise. To be corrected by: 4/9/2018

This inspection and exit interview were conducted with the licensee.
