2.31(c)(2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Animal facilities have not been inspected by the IACUC in the last 6 months. The last IACUC facility inspection was April 2013. An IACUC inspection serves the purpose of identifying and correcting both minor and major weaknesses in the facility that decreases animal welfare. It is vital for a facility to conduct these inspections in order to achieve and guarantee optimal animal welfare standards are being maintained. The IACUC must inspect all animal facilities at least every six months.

2.31(c)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

A program review and inspection report has not been submitted to the Institutional Official. The Institutional Official is accountable for all deficiencies at the facility and must be made known of the IACUC's findings. The IACUC shall prepare a report based on its semi-annual evaluations for the Institutional Official that identifies all deficiencies, designates them as minor or significant, and provides a reasonable and specific plan for correcting each deficiency with a scheduled amount of time.

2.33(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

The facility has no current written program of veterinary care. The facility had originally employed a full time veterinarian on staff but now employs two part-time veterinarians. Since there is no full time veterinarian on staff, a written program of veterinary care is necessary. A formal arrangement documenting the veterinary care of the animals is necessary to assure there is veterinary oversight and availability. Correct by making a formal arrangement with your part-time veterinarians that includes a written program of veterinary care, hours of availability, and the regularly scheduled visits to the facility.

Correct by: 6/14/2014

The inspection and exit interview were conducted with the Program Director.
