#### Facilities, general.

The covering over "Little D" pool at Dolphin Harbor, is supported by 4 large posts. Each of these posts have a section of what appears to be raised, cracked, flaking paint, located at the lower SE side of each support. Fragments of flaking paint and/or protective coating could fall into the pool and be ingested by the animals therein, posing a health risk to these animals. Indoor and outdoor housing facilities for marine mammals must be structurally sound and must be maintained in good repair to protect the animals from injury. To be corrected by May 13, 2023.

This inspection and exit interview were conducted with facility representatives.
