Type: ROUTINE INSPECTION

Date: 21-MAR-2024

2.75(b)(1)

Records: Dealers and exhibitors.

A current record of hamsters and gerbils on hand was not available except for weekly weanling counts. The record of animal deaths was not updated since October of 2023. Failure to maintain records on the number of adult hamsters and gerbils, the number of animals born, or died makes it difficult to assess the health of the colony by identifying animal losses by decreased number of animals born or raised. Licensee must maintain records containing the required information for animals which discloses the number of hamsters and gerbils held, born, acquired, or disposed of including births and deaths. Correct by April 1, 2024

This inspection and exit interview were conducted with the licensee.
