Certificate: **41-C-0237**  
Site: 001  
CHRISTIAN LILIENTHAL

Type: ROUTINE INSPECTION  
Date: 08-DEC-2015

---

### 3.31(a)(1)

#### SANITATION.

The enclosure housing eight guinea pigs contained an excessive accumulation of excreta. The presence of this waste could increase disease hazards, pests, odors and soiling of the animals. This enclosure needs to be cleaned and disinfected and maintained on a more regular basis to reduce these risks and ensure the health and well-being of the animals. Correct by December 9, 2015.

The female Capybara documented under 2.40(b)(2) on the inspection report dated October 1, 2015 has been addressed.

Inspection and exit briefing conducted with the owner and Kevin Wilken, ACI.

#### Additional Inspectors

Wilken Kevin, Animal Care Inspector
