3.8

Exercise for dogs.

A written exercise plan for dogs that is approved by the attending veterinarian was not completed and available for inspection. An exercise plan is necessary to ensure that dogs are provided with adequate space and opportunity for exercise for their health and well-being. Dealers must develop, document, and follow an appropriate plan to provide dogs with the opportunity for exercise, and the plan must be made available to APHIS upon request.

3.13(a)

Veterinary care for dogs.

The facility has an attending veterinarian; however, a written Program of Veterinary Care for dogs was not completed. Each facility with dogs must follow an appropriate program of veterinary care for dogs that is developed, documented in writing, and signed by the attending veterinarian. The written program of veterinary care for dogs is required and is important for the health and well-being of the animals and ensures clear and accurate communication between the facility and the attending veterinarian. Ensure a written Program of Veterinary care for dogs is developed and addresses all the requirements in this section. The program must also be approved and signed by the attending veterinarian and made available for all inspections.
