Facilities, general.

Medical cleaning supplies (chlorhexidine, betadine, povidine/iodine) were not stored in a cabinet as required in the animal areas, but were on a bottom shelf. Chemicals that are potentially harmful but that are required for normal husbandry practices must be adequately secured to prevent potential harm to birds.

Corrected during inspection.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 18 September or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue at all regulated sites under your existing USDA license until it expires on 20 August, 2025.
