ADEPT DIESEL SERVICE

Type: ROUTINE INSPECTION

Date: 10-JUN-2015

3.28(a)(1)

PRIMARY ENCLOSURES.

There is bare wood where the paint is worn off on the wooden base for the water receptacles and food bowls for the majority of the weaned guinea pig enclosures. Primary enclosures, including their racks, shelving and other accessories, must be constructed of smooth material substantially impervious to liquids and moisture. The wooden bases must be resealed, replaced, or removed so that surfaces in contact with the animals are impervious to liquids and moisture so that they can repeatedly cleaned and disinfected. Correct by ensuring that all surfaces in the primary enclosures for guinea pigs are impervious to liquids and moisture.

Correct by July 1, 2015

An exit briefing was conducted with the owner.
