Nettie Letterman
65 Valley View Rd
Niangua, MO 65713

Customer ID: 29209
Certificate: 43-A-4801
Site: 001
NETTIE LETTERMAN

Type: ROUTINE INSPECTION
Date: 27-MAY-2015

2.50(y)

TIME AND METHOD OF IDENTIFICATION.

- (a) A class ``A" dealer (breeder) shall identify all live dogs and cats on the premises as follows:
(2) Live puppies or kittens, less than 16 weeks of age, shall be identified.

***There were fourteen puppies at the time of inspection. None of these puppies had any form of identification. Appropriate identification of dogs is necessary to meet recordkeeping requirements for inventory, disposition, transport, and healthcare documentation. The licensee must identify all puppies that are less than 16 weeks old and assure that all regulated animals are identified as required.

To be corrected by June 3, 2015.

3.1(c)(3)

HOUSING FACILITIES, GENERAL.

- (c) Surfaces--(3) Cleaning.

***In the outdoor facility, the plastic type housing shelters were dusty and dirty. Three of these housing shelters were chewed around the doorways and the sides where the top of the shelter attached to the bottom. There was grime build up in the crevices of the teeth marks. Cleaning of hard surfaces is essential for a healthy environment and reduces disease hazards by eliminating harboring places for diseases and pests. The licensee must remove the dust, dirt and grime from these areas and assure that all hard surfaces are spot cleaned daily and sanitized as required.

To be corrected by June 3, 2015.

3.11(d)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

- (d) Pest control.

Inspection Report

***In the barn with the hutch type enclosures, there was an excessive amount of mice droppings on the top ledges of the housing shelters. Pests carry diseases which increases the risks of contamination to the dogs, water and food supply. The licensee must ensure that measures are taken to control these pests and establish an effective pest control program to eliminate pests throughout the entire facility as required.

To be corrected by June 3, 2015.

This inspection began at 1041.

The inspection and exit conference were conducted with the facility representative.

End of report.
