Access and inspection of records and property; submission of itineraries.

During the routine inspection of June 04, 2024, the licensee did not have the environment enhancement plan for birds nor the contingency plan available for review. Review of these programs allows APHIS officials to determine if the plans are complete for all animals involved, thus ensuring that the birds in your care are receiving appropriate psychological care and you are prepared to safeguard your animals during emergencies or disasters. Each exhibitor shall, during business hours, allow APHIS officials: to examine records required to be kept by the Act and the regulations and the standards in this part.
