Certificate: 74-C-0899

Site: 002

Happ-Y-Loosa Stables Inc.

Type: ROUTINE INSPECTION

Date: 21-AUG-2014

2.126(a)(2)

ACCESS AND INSPECTION OF RECORDS AND PROPERTY; SUBMISSION OF ITINERARIES.

The written program of veterinary care was not available for review during this inspection. The authorized person accompanying during inspection was unable to locate the document. Required records and documents must be available upon request by APHIS officials during inspection. Review of documents and records is necessary to ensure compliance with the regulations and standards under the Animal Welfare Act. In this case review of the veterinary care program helps to ensure adequate and appropriate veterinary care for the animals at the facility.

Correct by: Requested documents and records must be available during future inspections.

3.53(a)(1)

PRIMARY ENCLOSURES.

A raised wire enclosure housing seven rabbits in the main barn has broken wire that extends approximately one half the length of the top. The enclosure partially gaps in the damaged area and may not be structurally sound. Primary enclosures shall be maintained in good repair and structurally sound to protect the rabbits from injury, to contain them and keep predators out. This enclosure should be repaired or replaced.

Correct by: August 31, 2014.

3.53(c)(2)

PRIMARY ENCLOSURES.

Seven rabbits weighing less than 4.4 lbs. were housed in a primary enclosure that provided 6 square feet (2 ft x 3 ft).of floor space. The minimum required floor space for these seven animals should be 10.5 square feet. An enclosure measuring 6 sq. ft. is only adequate to house four rabbits weighing less than 4.4 lbs.

Each rabbit will be housed in a primary enclosure that at least provides the minimum amount of floor space necessary to allow normal postural adjustments and adequate freedom of movement. Alternative housing arrangements must be provided allowing each rabbit appropriate space.
