

## Inspection Report

Exotic Feline Rescue Center  
2221 E Ashboro Road  
Centerpoint, IN 47840

Customer ID: **2684**

Certificate: **32-C-0098**

Site: 001

EXOTIC FELINE RESCUE CENTER

Type: ROUTINE INSPECTION

Date: 05-MAR-2015

---

### 3.125(a) REPEAT

#### FACILITIES, GENERAL.

There are trees that are too close to the fence that could still provide an opportunity for an animal to escape. The enclosures with trees that are too close to the fences are #11, #15, #17, #18 and #19a. We are removing enclosures #8 and #14 due to the age and health conditions of the cougars 'Leroy' and 'Monica'. However, the trees must be addressed prior to different animals being placed in these enclosures (#8/#14)

The facility needs to remove any trees that are too close to the primary enclosure fences. If the trees are not going to be removed, an adequate kick-in over the top of the tree and/or around it that prevents the animals from climbing the tree to escape must be added or another method must be devised by the facility to effectively prevent the animals from using these trees for the purpose of escape. Taking these preventative measures and maintaining the enclosure fence according to AWA regulations and standards should decrease the risk of escape by the regulated animals that can climb and decrease the potential for safety risks to the animal and general public.

Inspection and exit interview conducted with licensee and Dr. Susan Kingston, VMO. The licensee refused to sign the inspection report upon advice of their lawyers. The report was left with the licensee and a copy was sent via certified mail.
