Type: ROUTINE INSPECTION
Date: 15-FEB-2024

2.75(b)(1) Repeat

Records: Dealers and exhibitors.

There is no record for one male and one female sun conure that were donated in mid December, 2023, and a record was completed at time of inspection for a rabbit that was donated December 25, 2023. Every exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning animals other than dogs and cats, purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born or hatched of any animal while in his or her possession or under his or her control, to the extent that any identification or counting of offspring can be carried out without unduly disturbing nesting or rearing activities. Records for all animal acquisitions and dispositions must be kept and maintained. These records must include the name and address from whom the animal was acquired, the USDA license of the person the animal was acquired or sold, the date of purchase and the species of animal acquired.

3.125(a) Repeat

Facilities, general.

There are two wooden grain feeders inside the shelter for the two dromedary camels and the two bactrian camels. The camels have chewed the grain feeders exposing 3 screwheads on one feeder and one nail-head in the other feeder. The nail and screwheads are approximately 1 1/2" tall. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. Facilities must be kept in good repair to ensure the animals in the enclosure do not ingest the nails or screws, or injure themselves on the exposed nail and screwheads.

This inspection and exit interview were conducted with a facility representative.
