Indian Cliffs Ranch Inc.
P. O. Box 1056
Fabens, TX 79838

Customer ID: **15544**
Certificate: **74-C-0550**
Site: 001
Indian Cliffs Ranch Inc.

Type: ROUTINE INSPECTION
Date: 19-SEP-2019

3.55

WATERING.

In an enclosure housing 30 rabbits, the in-ground water receptacle had thick, green, slimy debris coating the interior walls and bottom. There was also green/brown debris floating on the top of the water. This was the only drinking water receptacle present in the enclosure. It is the responsibility of the licensee to make sure all water receptacles be kept clean and sanitary for the overall health and well-being of the rabbits.

TO BE CORRECTED BY SEPTEMBER 26, 2019.

3.130

WATERING.

In the 3 separate enclosures housing 10 prairie dogs, 3 longhorns, and 7 llamas, the water receptacles had thick, slimy, green/brown debris coating the interior walls and bottom. There were large clumps of green/brown debris floating on the surface of the water. It is the responsibility of the licensee to make sure all water receptacles be kept clean and sanitary for the overall health and well-being of the animal.

TO BE CORRECTED BY SEPTEMBER 26, 2019.

3.131(d)

SANITATION.

In the enclosure housing 10 prairie dogs, there were two dead mice and one dead bird lying near the water receptacle. Pest control measures must be maintained to prevent pests, i.e. rodents and birds. Effective pest control measures must be identified and implemented to eliminate breeding and living areas for the birds and mice in order to minimize exposure to pathogens that may cause illness. The dead bird and mice must be removed from the enclosure and an effective program for control of rodents and birds must be established and maintained so as to promote the health and well-being of the animals.

TO BE CORRECTED BY SEPTEMBER 20, 2019.

This inspection and exit interview were conducted with facility representatives.
