Type: RE-LICENSE INSPECTION

Date: 08-NOV-2022

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The Licensee employs a part-time Attending Veterinarian and the written Program of Veterinary Care (PVC) available for review was incomplete. There were no details provided in the PVC regarding for the species of animals, preventative care, emergency care, or euthanasia.

Per this Section of the Regulations, whenever an exhibitor employs an attending veterinarian under part-time or consultant arrangements, a written PVC is required. The written PVC should include complete and specific details from the Attending Veterinarian regarding the preventative medical care and other health topics to ensure that adequate veterinary care is provided to the animal species maintained by the Licensee.

This is a 1st Relicense Inspection for a Class "C" license. The inspection and exit briefing were conducted with representatives of the Applicant.

All items must be in compliance within 2 more inspection(s) or by 1/7/23 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Relicense Inspection.
