Type: ROUTINE INSPECTION

Date: 15-SEP-2015

3.126(c)

FACILITIES, INDOOR.

(c) Lighting.

There is inadequate lighting for the kangaroo, goat, chinchilla, and hedgehog. These animals are housed indoors with artificial lighting. The lighting was inadequate for full inspection of the chinchilla and the hedgehog. The kangaroo and the goat need more lighting because they are species that normally would receive a large amount of sunlight if they were housed in a natural setting. The licensee shall provide ample lighting by natural and/or artificial means of the quality, distribution, and duration appropriate for the species involved and to permit inspection and cleaning.

TO BE CORRECTED BY OCTOBER 1, 2015.

The inspection and the exit briefing were conducted with facility representatives.
