Type: RE-LICENSE INSPECTION
Date: 01-DEC-2021

2.40

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A current/updated written Program of Veterinary Care (PVC) was not available for inspection. In order to comply with this section of the Animal Welfare Act (AWA) a written PVC must be in place and available for inspection at all times. Under formal arrangements, as directed by the AWA, the establishment must have an updated PVC by the current Attending Veterinarian (AV). Also, the establishment must ensure the AV conducts regularly scheduled visits to the premises where regulated animals are kept. To ensure adequate veterinary medical care to regulated animals, a current/updated PVC must be readily available for inspection, and at a minimum, the AV must visit the establishment's premises once per year.

2.75(b)(2)

Records: Dealers and exhibitors.

Records for animals at hand containing required information on acquisition, disposition, or transportation were not available for review at the time of the inspection. There were no required records available on the recent acquisition of a juvenile common zebra. The establishment shall make, keep, and maintain records or forms which fully and correctly disclose information on animals purchased or otherwise acquired, owned, held, or leased. Also, records are required when animals are transported, sold, euthanized, or otherwise disposed. The records shall include any offspring born of any animal at the facility's premises. The Record of Animals on Hand (APHIS Form 7019) and Record of Acquisition,

Inspection Report

Disposition, or Transport of Animals (APHIS Form 7020) are forms which may be used by the facility to keep and maintain the information required by federal regulations. The establishment needs to obtain/document the required information on the recently acquired common zebra, and made it available for inspection at all times.

3.81

Environment enhancement to promote psychological well-being.

The plan for environment enhancement adequate to promote the psychological well-being of the ring-tailed lemur was not available for inspection. Exhibitor facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of nonhuman primates. The plan must be in accordance with the currently accepted professional standards as cited in appropriate professional journals or reference guides, and as directed by the attending veterinarian. The plan, at a minimum, must address each of the following: social grouping, environmental enrichment, special considerations, and restraint devices. The plan must be made available to APHIS upon request during inspections.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by February 1, 2021, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
