Type: ROUTINE INSPECTION

Date: 15-JUN-2021

2.40(b)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The Program of Veterinary Care that was established has not been maintained with the acquisition of new species. The PVC does not contain information related to the care of the red kangaroo and the capybara.

Without adequate guidance by the Attending Veterinarian within the PVC, improper care and subsequent negative impact upon the health of animals under care may occur.

The PVC must be updated currently and whenever a new species is acquired to provide Licensee with direction for their care.

Correct by: 29 June 2021

This inspection and exit interview were conducted with the Licensees.
