### 2.131(c)(1) Critical

#### Handling of animals.

On or around 06/29/2024, a budgerigar died from trauma during a public exhibition. A member of the public stepped on a budgerigar in a walk-through aviary. The budgerigar died immediately

During public exhibitions animals must be handled so there is minimal risk of harm to the animal, with sufficient distance/or barriers between the animal and the general viewing public so as to assure the safety of the animals. Failure to handle an animal in a manner that minimizes the risk of harm can result in injury and death of the animal.

To be corrected from this day (7/24/2024) forward.

This inspection and exit interview were conducted with a facility representative.
