2.40(a)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*** The licensee is using a different vaccination schedule than what is identified on the consultant arrangement with the attending veterinarian. In addition the licensee is giving half dosage of vaccines two times instead of the recommended whole dosage one time. The vaccine schedule needs to be discussed with the attending veterinarian to assure that the dogs are protected from diseases and so the vet can provide guidance and has authority in this area.

*** The licensee has also been breeding and wholesaling rabbits and these animals need to be listed on the vet care arrangements to assure their health care needs are being met.

2.75(a)(1) REPEAT

RECORDS: DEALERS AND EXHIBITORS.

*** Records of disposition were not completed on 25 adult dogs that were re homed and left the facility. Records of disposition need to be maintained in a timely and accurate manner to track the movement of dogs and for good record keeping practices.

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

*** The licensee has been breeding and wholesaling rabbits in addition to the dogs, but no records have been maintained. Per this regulation records need to be maintained on the rabbits which are transported, sold, or euthanized, and the records shall include any offspring born of any animal while in his or her possession or under his or her control. This needs to be addressed for timely and accurate record keeping purposes.

Inspection Report

3.1(a)

HOUSING FACILITIES, GENERAL.

*** In several sections of the primary enclosures, the center support bar underneath the wire mesh is no longer attached to the base of the enclosure. This center support bar needs to be reattached to keep the enclosures in good repair and for the safety of the dogs.

Correct by: July 1, 2015

3.8(a) REPEAT

EXERCISE FOR DOGS.

*** A beagle that was 28 inches in length was housed in a 11.25 square foot enclosure. This enclosure is also the exercise area for the dog but does not meet the 2x space required to meet the exercise requirement which needs to be 16 square feet.

*** A male poodle that was 24 inches long was housed in a 7.5 square foot enclosure and needs 12.5 square feet to meet the exercise requirement.

There was no exercise plan available for review at the time of the inspection. An exercise plan for the dogs at the facility needs to be developed and documented and the plan for these dogs should encourage exercise through play or other similar activities. This needs to be addressed for the health of the dogs.

3.54(a)

FEEDING.

*** The facility was currently out of rabbit food and was feeding horse feed to the rabbits. It cannot be determined that this feed is palatable and of sufficient nutritive value to meet the normal daily requirements for the condition and size of the rabbits. This needs to be addressed for the health of the rabbits.
