### 3.125(a)

#### FACILITIES, GENERAL.

There is a wooden gate panel in the off exhibit tufted deer enclosure that is deteriorating. The wood panel has deteriorated and pulled away from the support boards exposing rough edges and screw points. Facilities that are not maintained in good repair can cause injury to the animals. The licensee must maintain facilities so that they are structurally sound, protect the animals from injury and contain the animals. This was corrected at the time of inspection.

The inspection and exit interview were conducted with the facility representative.

#### Additional Inspectors

Lundy Kendall, Animal Care Inspector
