Type: RE-LICENSE INSPECTION
Date: 02-MAR-2023

3.56(a)(1)

Sanitation.

Four rabbit enclosures are used to house 5 of the exhibition rabbits. The largest enclosure, housing two rabbits in a separate room, had an accumulation of feces on the floors of both levels of the enclosure. Two of the three other enclosures had a severe accumulation of dried feces on the absorbent blankets on the floors. Due to these severe accumulations of dried feces, it was evident that the enclosures have not been cleaned on a periodic basis. Although the two other rabbits are not currently housed in the two affected enclosures, it is still necessary to remove excreta from the blankets and floors for the health and well-being of the other rabbit, housed in a separate enclosure, in the same room.

Primary enclosures shall be kept reasonably free of excreta by periodic cleaning for the health, comfort and well-being of the rabbits housed therein.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by May 1, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
