

## Inspection Report

---

Noahs Ark Animal Rehab Center and Sanctuary Inc  
712 L G Griffin Road  
Locust Grove, GA 30248

Customer ID: **3157**

Certificate: **57-C-0037**

Site: 001

Noahs Ark Rehabilitation Center

Type: RE-LICENSE INSPECTION

Date: 15-APR-2025

---

### 3.127(d)

#### Repeat

#### Facilities, outdoor.

The following deficiencies were identified with the facility's perimeter fence:

- The back section of the brown bear's catch pen as well as one part of the extension to the foxes' enclosure were 32 inches thus less than 3 feet away from the perimeter fence.
- One side of the fence in the creek of Baloo the black bear's enclosure came away from the metal pole securing it in place leaving behind a large gap.
- A section of the perimeter fence behind the fox enclosure was about 5 feet tall, less than the required 6 feet.
- A gate that is part of the perimeter fence was slightly bent and damaged creating a 5 inch gap throughout the entire length.

With such gaps, insufficient height and distance in some areas, the fences may not stand as an effective barrier. Outdoor housing facilities must be enclosed by a perimeter fence to keep animals as well as unauthorized persons out and to function as a secondary containment system for the animals within the facility.

### 3.150(c)(2)

#### Repeat

#### Facilities, general.

There are areas of rust along the left side of the cockatiel enclosure with some areas actively flaking. One area has pitted causing a hole approximately 1.5 inches long by ½ inch wide with sharp edges. These rusted areas prevent appropriate cleaning and sanitization and may lead to further structural integrity issues. The animals may also injure themselves on jagged surfaces present when the metal starts to disintegrate. A more effective plan to address these issues and to maintain the enclosure in good repair needs to be established. The facility shall ensure that any surfaces that the birds can encounter are free of excessive rust or damage.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by June 15, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
