CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

In a food prep room, there is a moderate amount of clutter on the counter top. The presence of clutter may impede cleaning and sanitizing as required. A cutting board used in food preparation for non-human primates appeared worn and should be replaced. Food preparation rooms, including cutting boards, should be kept clean and sanitized to facilitate the husbandry practices as required.

To be corrected by July 15, 2014.

An exit briefing was conducted with facility representatives.
