Certificate: **23-A-0759**
Site: 001
Amos Fisher

Type: ROUTINE INSPECTION
Date: 08-FEB-2024

2.75(b)(1)

Records: Dealers and exhibitors.

A current record of guinea pigs on hand was not available for review at time of this inspection. There were no inventory records kept for the last few months indicating the number of adult guinea pigs and newborns present, except for a new weanling count recorded each Saturday. A total of 130 adult guinea pigs, 71 weanlings, and 49 newborns were counted during this inspection. Failure to maintain inventory records can make it difficult to assess the health of the caviary by identifying animal losses by decreased number of guinea pigs born or raised. Licensee must maintain records containing the required information for animals which disclose the number of guinea pigs held, owned, acquired or disposed of including births and deaths. Correct by February 12, 2024.

This inspection and exit interview were conducted with the licensee.
