Certificate: **34-C-0388**

Site: 001

KLACKLE ORCHARDS LLC

Type: ROUTINE INSPECTION

Date: 13-OCT-2016

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There is no documentation of the attending veterinarian visiting the facility since 2014. The program states that the attending veterinarian will visit biannually.

Each exhibitor shall have an attending veterinarian with written instructions for the care of each species and regularly scheduled visits to the premises.

Have documentation of your veterinary visits available at time of inspection.

To be corrected from now on.

2.40(b)(2) DIRECT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

One grey rabbit on the second floor of the barn was observed to be laying in an abnormal lateral position in enclosure. Upon picking up the rabbit to get him to move, he showed a lack of ability to move the hind limbs.

Each animal should have daily observation to detect any injuries or illness and need for veterinary care. This rabbit needs seen by the attending veterinarian for diagnosis and appropriate treatment.

Correct immediately by calling the attending veterinarian.

2.40(b)(3)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

One grey rabbit on the second floor of the barn was observed to be laying in an abnormal lateral position in enclosure. Upon picking up the rabbit to get him to move, he showed a lack of ability to move the hind limbs.

Each animal should have daily observation to detect any injuries or illness and need for veterinary care. This rabbit needs seen by the attending veterinarian for diagnosis and appropriate treatment.

Date:
13-OCT-2016

Inspection Report

Correct from this day forward.

3.127(c)

FACILITIES, OUTDOOR.

There is a cow and calf in an enclosure with excess water and mud in it.

A suitable method shall be provided to rapidly eliminate excess water. Animals shall have dry access to food, water and shelter.

Provide a method to eliminate excess water, move the water trough or move the animals to provide dry access to food, water and shelter for the health and comfort of the cows.

To be corrected by October 16, 2016.

3.129(a)

FEEDING.

There is an open bag of pig feed on a shelf in the barn.

The food shall be wholesome, palatable, and free from contamination and of sufficient quantity and nutritive value to maintain all animals in good health.

Open bags of food shall be in a closed container to prevent avian or mammalian infestation and contamination of the feed.

To be corrected by end of business today.

This inspection and exit interview were conducted with the licensee.

Additional Inspectors

Nanney Rebecca, Veterinary Medical Officer
