CHESTER SAUDER

Type: ROUTINE INSPECTION
Date: 18-JAN-2018

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*** One large breed dog "Frisky" had matted fur underneath his belly area, behind the legs and on his ears. Once the fur becomes matted it pulls and separates from the skin causing potential skin irritations and does not function as an insulation against the elements. This dog needs to be brushed on a routine basis to prevent matted fur and these mats should be removed for the comfort of the animal.

Correct by: Jan 21, 2017

This inspection and exit interview were conducted with a facility representative.
