3.131(c)

Sanitation.

Housekeeping needs to be addressed in the giraffe barn. There is an excessive number of cobwebs hanging down from the ceiling and on the fans that have trapped dust and debris. These areas of the barn need to be effectively cleaned throughout the year, as the animals are maintained in the barn for several months of the year. This needs to be addressed to promote good housekeeping practices and for the health of the animals.

3.153(a)(1)(i)

Primary enclosures.

The wooden platform in the parrot enclosure at the event center needs to be replaced. The parrots have chewed the platform, exposing screws that are sharp and could cause potential injury to the birds. Perching and enrichment items must be maintained in good repair for the safety of the birds.
