Contingency planning.

Licensee did not have a documented appropriate plan to provide for the humane handling, treatment, transportation, housing and care of their animals in the event of an emergency or disaster. Contingency plans must identify situations the licensee might experience that would trigger the need for measures identified in the contingency plan to be put into action, outline specific tasks, chain of command and response and recovery. Personnel must be trained on the plan and any changes made as a result of annual reviews.

Correct by 31 March 2023
