3.13(c)

CONSIGNMENTS TO CARRIERS AND INTERMEDIATE HANDLERS.

A dog was encountered at the Animal Quarantine center that had arrived from LAX to HNL with Hawaiian Airlines baggage tag HA IA 60 32 55. The owner's certification regarding feeding and watering on top of the kennel had been completed incorrectly: the date entered for last time the animal was offered food was 2-29-15, and the "29" was scribbled over and not completely legible. The carrier should take steps to ensure that ticket counter personnel carefully review the information provided by the owner to verify that it is complete and accurate in order to protect the well-being of the animal.

To be corrected immediately.

3.14(a)(6)

PRIMARY ENCLOSURES USED TO TRANSPORT LIVE DOGS AND CATS.

A dog was encountered at the Animal Quarantine center that had arrived from LAX to HNL with Hawaiian Airlines baggage tag HA IA 60 32 55. There were "Live Animal" stickers attached low, on the sides of the carrier, but none on the top. The carrier should ensure that "Live Animal" stickers are on the top of the carrier, and one or more sides.

To be corrected immediately.

The ticket counter, cargo office, and animal quarantine areas were inspected.

An exit interview was conducted at the cargo office and ticket counter, and the inspection report was delivered to the ticket counter.
