PATRICIA A. SHELLABARGER

Type: ROUTINE INSPECTION

Date: 10-JUN-2025

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

On routine inspection, there are several expired vaccines, medications, and supplements including Intranasal Bordetella Canine Adenovirus Type 2- Parainfluenza- Bordetella Bronchiseptica vaccines, Clavamox drops, Penicillin injectable, Epinephrine, Liquid dewormer, Vit B Complex injectable, Pyrantel, Amoxicillin powder, and canine multivitamins. The use of expired vaccines, medications, and supplements can be ineffective and lead to unnecessary animal illness or discomfort. The facility must ensure the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries. The licensee must ensure all vaccines, medications, and supplements on-hand are not expired. The facility corrected this at time of inspection on June 10, 2025, by throwing expired vaccines, medications, and supplements away.

This inspection and exit interview were conducted with the licensee.
