Certificate: **35-A-0429**
Site: 001
SUZANNAH & ADAM HELMAN

Type: RE-LICENSE INSPECTION
Date: 25-AUG-2021

3.13(a)(3)

Veterinary care for dogs.

The written Program of Veterinary Care (PVC) is not complete. There is no schedule approved by the Attending Veterinarian (AV) addressing the sampling for and the treatment of parasites and other pests including fleas, worms, coccidia, giardia, and heartworm. Lack of a complete and approved PVC does not ensure that proper veterinary care is being provided to the animals. The AV must approve a schedule for sampling and treating parasites and other pests.

3.13(a)(4)

Veterinary care for dogs.

The written Program of Veterinary Care (PVC) is not complete. The PVC must include measures for preventative care and treatment to ensure healthy and unmatted hair coats, properly trimmed nails, and clean and healthy ears, eyes, skin and teeth. Lack of a complete and approved PVC doesn't ensure that proper veterinary care is being provided to the animals. The PVC must address preventative care and treatments.

This is a 1st Relicense Inspection for a Class A license. The inspection and exit briefing were conducted with the Applicant. All items must be in compliance within 2 more inspection(s) or by October 25, 2021 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Relicense Inspection. Regulated activity can continue under your existing USDA license until it expires.
